Alberti, M., s. Burke, D. H.

Armstrong , J. A., s. Stace, H. M.

Burke, D. H., Raubeson, L. A., Alberti, M., Hearst, J., Jordan, E. T., Kirch, S. A., Valinski, A. E. C., Conant, D. S., Stein, D. B.: The *chlL* (*frxC*) gene: phylogenetic distribution in vascular plants and DNA sequence from *Polystichum acrostichoides* (*Pteridophyta*) and *Synechococcus* sp. 7002 (*Cyanobacteria*) 89

Cocucci, A., s. Sazima, M.

Conant, D. S., s. Burke, D. H.

Doebley, J. F., s. Petersen, G.

Egea, J. M., Torrente, P., Manrique, E.: The *Lecanactis grumulosa* group (*Opegraphaceae*) in the Mediterranean region 103

Hausner, G., s. Sazima, M.

Hearst, J., s. Burke, D. H.

Igersheim, A.: Gynoecium development in *Rubiaceae-Vanguerieae*, with particular reference to the "stylar head"-complex and secondary pollen presentation 175

Jahns, H. M.: Culture experiments with lichens 145

James, S. H., s. Stace, H. M.

Jansen, R. K., s. Johansson, J. T.

Johansson, J. T., Jansen, R. K.: Chloroplast DNA variation and phylogeny of the *Ranunculaceae* 29

Jordan, E. T., s. Burke, D. H.

Kirch, S. A., s. Burke, D. H.

Lu, Bao-Rong: Genomic relationships within the *Elymus parviglumis* group (*Triticeae: Poaceae*) 191

Manrique, E., s. Egea, J. M.

Paul, H., s. Westerkamp, C.

Petersen, G., Doebley, J. F.: Chloroplast DNA variation in the genus *Secale* (*Poaceae*) 115

Pignone, D.: Non-reductional meiosis in a *Triticum turgidum* × *Aegilops longissima* hybrid and in backcrosses of its amphidiploid with *T. turgidum* (*Poaceae*) 127

Raubeson, L. A., s. Burke, D. H.

Sazima, M., Vogel, S., Cocucci, A., Hausner, G.: The perfume flowers of *Cyphomandra* (*Solanaceae*): pollination by euglossine bees, bellows mechanism, osmophores, and volatiles 51

Stace, H. M., Armstrong, J. A., James, S. H.: Cytoevolutionary patterns in *Rutaceae* 1

Stein, D., B., s. Burke, D. H.

Torrente, P., s. Egea, J. M.

Valinski, A. E. C., s. Burke, D. H.

Vogel, S., s. Sazima, M.
Wedin, M.: A phylogenetic analysis of the lichen family *Sphaerophoraceae* (*Caliciales*); a new generic classification and notes on character evolution . . . 213
Westerkamp, C., Paul, H.: *Apios americana*, a fly-pollinated papilionaceous flower? 135
